

Premium clear retainers

Strength, fit and clarity

- Standard thickness is 1mm, however other sizes may be requested
- Ultra clear, strong, durable and stain resistant
- BPA and phthalate free
- Can be finished with a straight line (1-2mm facially, 6-8mm lingually) below gingival margin or scalloped along margins
- Teeth can be added to function as a temporary in lieu of an acrylic flipper or stayplate
- Delivered by end of next business day for local customers (excluding with teeth)
- Can be delivered same day with a rush charge

Have a patient who cannot tolerate metal clasps or acrylic?
Our clear retainers with teeth are an option.
